

Shared bike parking at Bankstown Station

Have Your Say

August 2026

Transport for NSW acknowledges the Bediagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is planning for shared bike parking at Bankstown Station ready for when shared bike services become available in the Bankstown area.

With the new Southwest Metro opening, shared bikes could provide another convenient way for people to get to and from the new Metro station. Transport is proposing to install dedicated shared bike parking areas in two locations in Swayne Reserve and near the station plaza.

Further detail is available in the map overleaf.

Please provide your feedback by Sunday 30 August 2026.

What are shared bike parking areas?

Shared bike parking areas are marked spaces, either on footpaths or on the road, that restrict where people can pick up and return shared bikes. Shared bike operators direct riders to park in these areas when ending their trip.

The parking areas are similar in size to a car parking space, approximately 5 to 6 metres long by 1.8 metres wide and are identified by line marking, with signage and protective barriers provided where suitable.

Why are they needed at Bankstown Station?

Installing shared bike parking areas now will mean they are ready when shared bike services become available in the Bankstown area.

Dedicated parking areas will provide convenient parking for riders travelling from different directions and help keep station entrances, footpaths and public spaces clear for pedestrians, wheelchair users and people with prams.

Where will they be installed?

Shared bike parking areas are proposed in two locations around Bankstown Station and will provide parking for approximately 6 shared bikes at each location.

Swayne Reserve:

- Next to the existing bike parking in the park, near the station entrance.

Southern side of Bankstown Station, near the plaza:

- In the landscaped area next to the path between the station entrance and the plaza.

What will this mean for you?

Some construction work will be required to install the shared bike parking areas, including:

- Concreting and removal of some grass and vegetation.
- Line marking to clearly indicate the shared bike parking areas.

Have Your Say

If you have feedback on the proposed changes, please get in touch with the project team by **Sunday 30 August**, via the contact details at the bottom of the next page.
